Aim of the Conference

The conferences organized by the Serbian Association of Hydraulic Research and the Serbian Association for Hydrology have been held since 1954. They are intended to bridge the scientific and professional community on current issues and trends in the fields of hydraulics and hydrology.

The conference will be held with the financial support of the Ministry of Education, Science and

Technological Development of the Republic of Serbia.

Date and Venue

The conference will be held from 5th to 6th October 2015 in Vršac, Serbia, at the „Srbija“ hotel (www.hotelsrbija.rs). Conditions and prices for the accommodation will be given in subsequent announcements.

Main Conference Topics

- Hydraulic structures
- Numerical modelling
- River hydraulics
- Flood control
- Groundwater hydraulics
- Measurements
- Hydro-power systems
- Environmental impact assessment
- Water supply and sewer systems
- Deterministic hydrologic models
- Hydrology for the renewable energy
- Flood hydrology
- Rainfall as an input for the hydrologic analysis
- Floods in Serbia in 2014
- Climate change impacts on water resources
- Ecohydrology
- Solid waste management
- Integrated water resources management

The authors may send their contributions in the listed topics and may also suggest new topics related to hydraulics and hydrology. The Scientific Committee will review all suggestions and will, if necessary, extend the topics list.

Language of the Conference

Formal conference languages are: Serbian, languages of the former Yugoslavia and English. Papers in Serbian can be prepared either in Cyrillic or Latin fonts.

Procedure for submission

Abstracts and papers must be prepared in MS Word and sent to:
